

AI-Powered Cyber Threat Intelligence Platform

FOCUSING ON THE THREATS THAT MATTER MOST

AI-Driven Threat Prioritization

- Our platform uses advanced AI algorithms to analyze vast amounts of threat data.
- Identifying and prioritizing the most relevant and impactful threats to your organization.
- This ensures your teams focus on what truly matters.

REAL-TIME THREAT MONITORING & DAILY SNAPSHOT

- Stay continuously informed with real-time threat monitoring and concise daily snapshots.
- Our platform aggregates and synthesizes global threat intelligence.
- Providing you with an essential briefing on emerging risks.

UNBIASED AND COMPREHENSIVE INTELLIGENCE SOURCING

- We gather intelligence from a diverse range of sources both open and closed.
- Ensuring a holistic and unbiased view of the threat landscape.
- This breadth of data provides unparalleled visibility into potential risks.

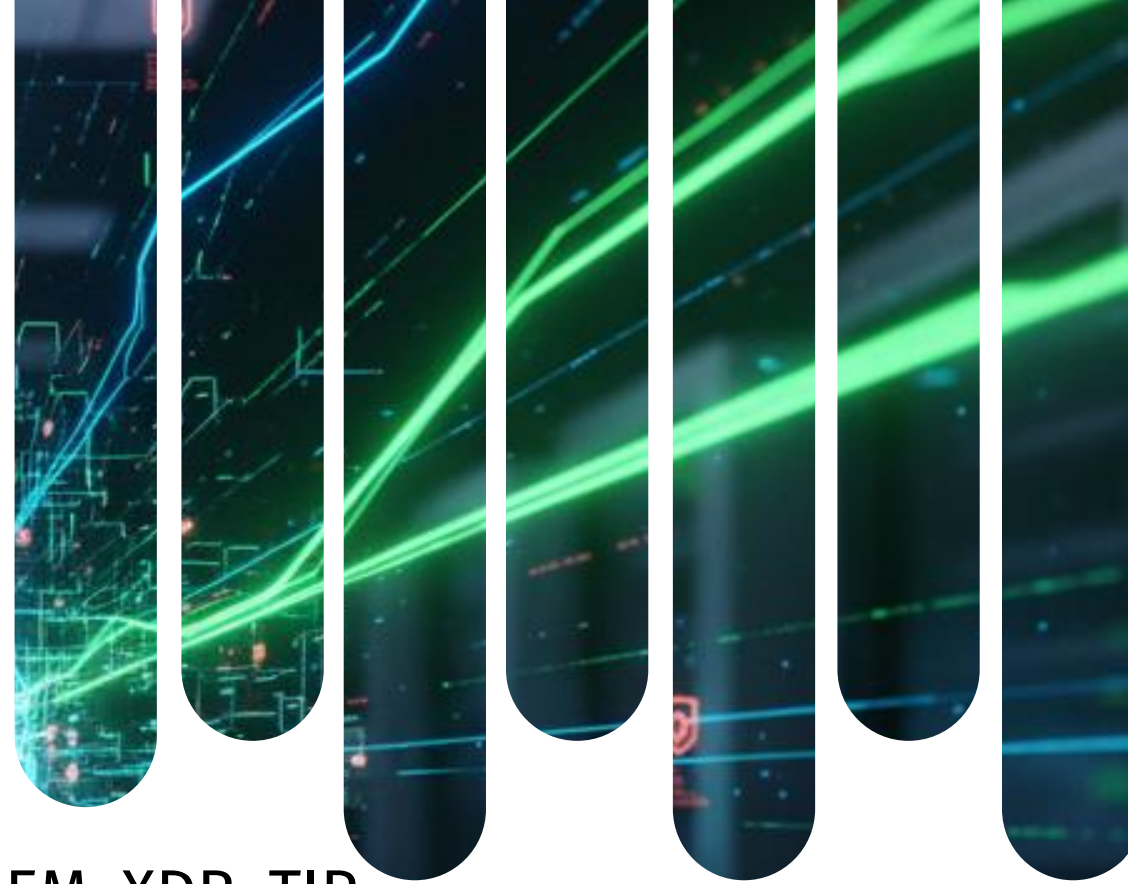

A series of seven vertical bars of varying heights and widths, each containing a different cyber-themed pattern. The patterns include circuitry, data streams, and various icons like padlocks and 'X' marks in red and blue. The colors are primarily red, blue, and green on a dark background.

SOPHISTICATED PATTERN MATCHING & ACTOR TRACKING

- Our AI goes beyond individual alerts, correlating disparate pieces of information.
- Identifying broader attack campaigns and track the tactics, techniques, and procedures (TTPs) of specific threat actors.

ANOMALY: UNIFIED AI-DRIVEN SECURITY OPERATIONS

- Cloud-native big data platform integrating SIEM, XDR, TIP, and SOAR capabilities.
- Reduces threat research time from hours to seconds with AI-assisted workflows.
- Empowers SOC teams with high-fidelity alerts and automated investigations.

FOCUSING ON THE THREATS THAT MATTER MOST

AI-Driven Threat Prioritization

- Technical Teams - Detailed IOCs, malware analysis, and vulnerability reports.
- Security Leadership - Strategic threat trends, risk assessments, and executive summaries.
- Incident Responders - Immediate context, playbooks, and mitigation strategies.

THANK YOU
